FEDERATION PROCEEDINGS
Vol. 26, No. 6, November-December, 1967
Printed in U.S.A.

Subject Index to Volume 26[1]

Absorption
digitalis, 1119
factors influencing, 1583
intestinal resection response, 1583
laboratory methods, 1583
rate and site importance, ruminants, 1006
ruminant ruminoreticulum, 994, 1244
sulfonamides in ruminants, 1001, 1244
Acetylation
marine species, 1047
Acetylcholine
postjunctional membrane response, 1647
Acidification process
bladder sac system, 1314
Actinomycins: *see also* Drugs, anticancer
Adrenal cortex
inhibitors of, 1192
species variability, 1192
Adsorption
pinocytosis uptake phase of, 987
Age
heroin, toxicity, 1115
morphine, toxicity, 1115
Agricultural science, and biological research, 1284
D-Alanine carboxypeptidase
penicillin sensitivity, 9
Alcohol
caloric consumption, 1432
effects, central nervous system, 1468
liver disease, 1432, 1443
liver disease-diet relationship, 1449
metabolic effects, excessive, 1443
Alcoholic liver disease
alcohol-diet relationship, 1449, 1458
alcoholic consumption, 1432
antioxidant balance alteration, 1436, 1443
cellular abnormalities, 1458
diagnosis of, 1474
dietary protection, 1443, 1449, 1474
Executive Drinker, 1432
fatty acid origin, 1443
lipoperoxide formation, 1436, 1458, 1474
metabolic differences, 1443, 1474
vitamin therapy, 1443, 1474
Aldosterone
electrolyte balance, 39
Alkylating agents
cytotoxicity, 885
drug, specificity of, 890
effects, 885, 890, 925
transplantation efficacy, 890
X-rays, differences, 885
Altitude
water requirements, 1760
work performance, 1760
Amines
marine organisms, 1197
Amino acid
muscle action site, 1633
neuromuscular sensitivity, 1633
sequence necessity, ribonuclease, 1380
Aminoglycoside antibiotics
induction of code ambiquity, 5
β-Aminopropionitrile
calcium, 121
hemorrhage, 121
lathyrism, 121
Aminopterin
inhibition, dehydrofolate reductase, 894
Anaphylaxis
anaphylactoid reactions, histamine release, 224
Angiotensin
biochemistry, 42
blood pressure regulation, 39
electrolyte balance, 39
intrarenal function, 55
Animal
disease information, 1157
Animal screening
drawbacks, 1062
Anthrax
altitude, influence of, 1503
biochemical and pathophysiological changes, 1539
conference summary, 1569
dormant spores of, 1504
economic importance of, 1493
epidemiology of, 1496
field data, 1558
Kruger National Park, 1496
pathology of, 1518
penicillin therapy, 1563
problems, unsolved, 1571
reactions, dose-time, 1558
respiratory exposure to, 1518
sources and dissemination, 1496
spore transformation, 1504
susceptible and resistant hosts, 1496, 1518
symptoms, game animals, 1496
vaccines for, 1493
vegetative cells, 1504
Anthrax toxin
central nervous system involvement, 1549
characteristics and components of, 1522, 1527, 1554
purification of, 1534
reactions, primates, 1539
species differences, 1558
testing methods, 1522, 1527, 1549, 1554
Antibiotics
blind-loop syndrome therapy, 1426
cell wall synthesis, effect on, 9
effects, long-term, 931
transport inducers, 1355
transport inhibitors, 1355
Antibody, circulating
hypersensitivity, 959
postrenal transplantation, 916
Antibody response
drugs, enhancement, 907
selective elimination and synthesis, 907
Anticancer drugs: *see also* Antitumor agents, Chemotherapeutic agents, cancer
selective chemotherapy, 1071
specific drugs, 885, 921, 926
Anticoagulants
marine organisms, 1197
Antimetabolites: *see* Folate antagonists
cellular response, 1139
characteristics of, 1139
effects, long-term, 925
pharmacology of, 1139
species response, 1139
Antimicrobials
marine organisms, 1197
Antineoplastic agents: *see also* Chemotherapeutic agents, Antitumor agents
Antioxidant
liver disease balance alteration, 1436
Antitumor agents: *see also* Chemotherapeutic agents
Antiviral drugs
marine organisms, 1197
Arsenic
historical background, 194
misconceptions, 194
nutritional tolerances, 194
toxicity of, 194
trace element, 194
Assay
firefly enzyme, 981
Authorship patterns
biomedical scientists, 1288
Avian embryo
cardiac norepinephrine, 1137
Avian heart
drug concentration, 1137
Axons
squid, giant, 981
Azaguanine
protein synthesis, 905
Azo reductase
marine species, 1047

Bacillus
Bacillus anthracis
avirulent, virulent pigment differences, 1532
cytology of, 1504
sporulation of, 1504
Bacillus anthracis filtrate
epinephrinelike effects of, 1545
Bacillus cereus
purine analogues, effect on, 905
Bacteria
streptomycin-dependent mutants, effect on protein synthesis, 5
Barrier systems
insects, 1056

[1] This index covers volume 26 with the exception of no. 2, the abstract issue, which carries its own subject index.

Behavior
acquired patterns, 1146
brain bioamines, mice, 1186
maintenance, 1146
patterns, mice, 1186
reinforcers of, 1146
species similarities, 1146
Behavioral drugs
pharmacology, 1146
Bile salts
cholesterogenesis regulation, 1589
metabolic importance, 1589
mucosal-intestinal relationship, 1589
Bioelectrogenesis
ionic theory, 1613
Biological response
diet, 981
guinea pig, scurvy, 981
Biological systems
historical considerations, 975
parallel evolution, 975
Biosynthesis
lipopolysaccharide, bacterial, 70
Biotransformation
digitoxin, 1119
Biotransformation rate
drug duration, 1125
Blood-brain barrier
morphine, 1115
permeability, 1024
species differences, 1024
vertebrate development, 1024
Blood cells, human
invertebrate agglutinin reaction, 1666
Blood sugars
histamine, 224, 230
Body constituents
metabolic variations, 1027, 1047
transport variations, 1027
Bone
dietary deficiencies, 1717
hormonal deficiency, 1717
Bone loss
child-adult differences, 1747
cortical thickness changes, 1723
dietary factors, 1737
dietary hypothesis, 1729
hormonal factors, 1737
jaw bone localization, 1723
mineral intake and, 1747
overlapping variables, 1729
rate of, 1729
space flights and, 1747
Bone marrow aplasia
alkylating agents, 925
Bone mineral
ultrastructure of, 1717

Calcium
β-aminopropionitrile toxicity, 121
lathyrism and collagen formation, 121
Caloric requirements
climatic changes, 1760
Cancer
transplantation therapy, immunosuppression, 923
Cancer therapeutic agents
cytological abnormalities, 925
Carbamylcholine
neuromuscular activity of, 1639
Carbohydrate
digestive-absorptive defects, 1415
effect of epinephrine, 1179
effect of serotonin, 1179
glucose-galactose malabsorption, 1415
Carbohydrate metabolism
chromium, 186
histamine, 222, 224
manganese, 118
zinc, 172
Carbonic anhydrase
invertebrate systems, 1097
mammalian systems, 1097
physiology, 1097
Carcinogens
invertebrate response, 1693
Cardiac glycosides
lipid solubility, 1125
neurotoxic action, 1119
pharmacology, 1119
species differences, excretion, 1125
species similarity, 1119
Cardiac glycoside duration
species differences, 1125
Cardiovascular disease
exercise, 1768
nutrition, 1768
Cartilage
manganese deficiency effect, 118
Catecholamine
avian embryo, 1137
morphine, 1111
Cattle
veterinary therapeutic, 1227, 1244
Cell adhesion
platelet thrombus formation, 84, 88, 95, 106, 115
Cell contact
adhesion, 88
biophysics, 88
vascular endothelium, 88
Cell damage
transducer system, 1062
Cell receptor
enzyme differences, 1078
Cellular responses
molluscs, 1685
Central nervous system
effects, alcoholic, 1468
Central nervous system development
nutrition, 134
vitamin B_6, 134
Cerebrospinal fluid
blood brain interrelationship, 1020
extradural fluid, 1020
Chemiosmosis
ATPase reaction reversal, 1370
coupling membrane, 1370
photo-oxidoreduction, 1370
Chemiosmotic coupling
oxidative phosphorylation, 1335
Chemiosmotic hypothesis
chloroplast application of, 1361
coupling membrane properties, 1370
history of, 1335
results, experimental, 1370
resume of, 1361
Chemotherapeutic agents
therapy, remission, duration, relapse, 933
Chemotherapeutic agents, cancer
dose range, 918
dose-response curve, 918
survival time, recipients, 933
tissue, normal, 918
Chloroplast fragments
osmotic properties, 1371
Chloroplasts
acid-base transitions and phosphorylation by, 1361
chemiosmotic hypothesis application by, 1361
Cholesterol levels
exercise, 1768
Chromium
biological role, 186
diabetes, 186
metabolism, 186
occurrence, 186
Chylomicrons
formation of, 1599
size-composition-clearance relationship, 1599
Clinical trials
sample sizes, 1075
value of, 1075
Coagulants
marine organisms, 1197
Comparative studies
variables, 1075
Compartments
ruminant ruminoreticulum, 994
Concentration
pinocytosis uptake, 987
Concentration gradient
ruminant importance, 1006
Congeners
definition of, 1468
effects of, 1468
potency of, 1468
"superbourbon," 1468
Conjugation reactions
marine vertebrates, 1047
species differences, 1029, 1047
Contents
ruminant ruminoreticulum, 994
Conversion rates
drug metabolites, 1040
Copper
amine oxidase activity of aorta, 129
amine oxidase activity of liver mitochondria, 129
aortic elastin, 129
Cytodifferentiation in slime mold
control, 77
polysaccharide transferase, 77
preferential release of transferase activity, 77
Cytological abnormalities
alkylating agents, polyfunctional, 925
cancer therapeutic agents, 925

Defense mechanisms, insects
cellular responses, 1671
nodule formation, 1671
phagocytosis, 1671
Defense mechanism, invertebrates
coagulation, 1707
Deficiency syndromes
carbohydrate, disaccharidase, 1415
Demethylation
marine vertebrates, 1047
Destruction rate
drug metabolites, 1040
Diet
athletic performance, 1772
biological response, 981

interactions of ruminant, 994
protection, liver disease, 1449, 1474
Diffusion
mucosal fluid direction, 1314
serosal fluid direction, 1314
Digitalis
absorption, 1119
distribution, 1119
excretion, 1119, 1125
species differences, 1119
Digitalis glycosides
mammalian response, 1119
species insensitivity to, 1119
transmembrane potential, 1119
Digitoxin
biotransformation, 1119
hydroxylation, species difference, 1119
Digoxin
estrogen protection, 1119
Disease
man-animal extrapolation, 1089
Distribution
digitalis, 1119
drug, ruminoreticulum, 994
sulfonamides in ruminants, 1001, 1244
DNA
alkylating agents, 885
Dopa
avian heart, 1137
Dopamine
avian heart, 1137
Dosage
immunosuppressive schedule, results of, 953
M-series, 1251
toxicity, 958
Drug acetylation
species differences, 1029, 1047
Drug action
species differences, 1062
Drug administration
ruminants, 1244
zoological methods, 1247, 1251
Drug assay
methods, 1062
Drug dosage
response variability, 1062
Drug duration
biotransformation rate, 1125
heroin, 1115
morphine, 1115
Drug effects
transducer system, 1062
Drug hydrolysis
species differences, 1029
Drug inhibition
species differences, 1040
Drug metabolism
factors, 1029
marine vertebrates, 1047
nonspecific enzymes, 1062
patterns, 1029
species differences, 1029, 1040, 1044, 1047
Drug metabolites
biological alterations, 1040
conversion rate, 1040
destruction rate, 1040
Drug oxidation
species differences, 1029
Drug reduction
species differences, 1029
Drug response
analgesics, 1146
dosage variability, 1062
interference, 1146
plasma level, 1062
species difference, 1040
species similarity, 1062
Drug therapy
plasma levels, 1062
veterinary medicine, 1227
Drug toxicity
human studies, 1075
Drug transport
species differences, 1027
Drugs
anticancer, 918, 925, 934
cytotoxic, 914
efficacy, administration time, 907
immune responses, 907
immunosuppressive, 890, 907, 914, 915, 953, 958
ruminant ruminoreticulum distribution, 994
screening, 958
secretion, milk, 1244
species differences, 934, 958

Electrical resistance
experimental methods of, 1303
gastric mucosa response, 1303
Electrogenesis
permeability changes, 1613
Electron transport
energy coupling, 1333
Endocrine
receptor response, 1192
veterinary problems with, 1227
Energy coupling
history of, 1333
Enteric microorganisms
malabsorption, 1426
Enzymes
allosteric regulation, 1179
cell receptor differences, 1078
firefly assay, 981
inhibitor analysis, 1078
marine vertebrates, 1047
nonspecific, 1062
qualitative differences, 1078
species differences 1078
Eructation
ruminant ruminoreticulum, 994
Estrogens
protective mechanism of, 1119
Excretion
cardiac glycosides, 1125
cattle, renal drug, 1244
digitalis, 1119, 1125
marine vertebrates, 1047
renal rates, 1008
sulfonamides by ruminants, 1001
Exercise
athletic diets, 1772
carbohydrate energy yield, 1772
cardiovascular disease, 1768
cholesterol levels, 1768
chylomicron transport, 1755
classification of, 1768
coronary circulation, 1768
dietary composition and, 1772
environmental factors, 1778
fat energy yield, 1772
free fatty acids, 1755
glycogen storage, 1772
liver lipid effects, 1755
nutritional complexities, 1778
Experimental animals
diverse species availability, 975, 1157
evolutionary control system, 975
leech, 975, 1157, 1247
squid giant axons, 981
Extradural fluid
cerebrospinal fluid differences, 1020
cerebrospinal similarities, 1020
Extrapolation
man-animal, disease, 1089

FASEB
Analysis of 1966 national register, 1577
Annual Meeting notes, 961
Annual Meeting report, 1575
Army's Outstanding Civilian Service Award to W. H. Griffith, 1
Beaumont, Home of the Federation, 1573
Comments from speech by Emilio Q. Daddario, 1267
Federation members winners of Nobel Prize, 1
Federation Program volunteer papers, 1288
Laboratory animal legislation, 1
Reflection in memory of John E. Fogarty, 875
Translation Supplement in Federation Proceedings, 1293
Fatty acid
insects, 1056
origin, alcoholic fatty liver, 1443
Fishes
poisonous, 1206
venomous, 1206
Fluoroacetate
species response, 1074
Folate antagonists
effects of, 893, 918, 925
Free fatty acids
exercise effects, 1755
Frog
nerve impulses, 981

Genetic studies
fruit fly, 981
Genetics, bacterial
infectious drug resistance, 23
resistance factors and other episomes and plasmids, 23
Gold
pinocytotic use of, 987
Goosefish
renal function, 981
Graft survival, 942, 944, 953, 958
Guinea pig
response, scurvy, 981

Hemolysis
red cells, membrane permeability, 1785
Heroin
toxicity-age, 1115
Histamine
binding in mast cell granules, 219, 222
cellular uptake, 211
exocrine secretions, 233, 237
gastric secretion, 233, 237

heparin and histamine binding, 211
locus of origin, 211, 233, 237
nonmast cell origin, 237
properties, 211
tissue uptake, 233, 237
Histamine metabolism
control, 233
Histamine release
carbohydrate metabolism, 222
heparin inhibitor, 231
mast cell granules, sodium effect, 219
salivary gland, 237
sugars and heat effects, 222, 224
Histidinemia
auditory disorder, 148
mental development, 148
speech disorders, 148
Histocompatibility
testing, effects of, 944, 958
Homograft: *see* Graft survival
Hormones
endocrine response, 1192
invertebrate, regulating, 1179
species use of, 1192
two-messenger, 1179
Hydroxylation
marine vertebrates, 1047
Hypersensitivity
delayed, cytotoxic drugs, 914
drug, response to, 958
Hypogammaglobulinemia
immunological, studies of, 932
infectious causes, 1606
nodular lymphoid hyperplasia syndrome, 1606

Immune response
cellular uptake, mechanism of, 958
Immunology, insect
hemolymph-bactericidal activity, 1675
response, hemolymph, 1675
terminology difficulties, 1675
Immunosuppressant
drug, potency, 907
Immunosuppression
antilymphoid sera, possibilities of, 944
inhibition, selective, 958
vasodilating agent, rejection reversal, 953
Impulses
frog nerve, 981
Inflow
ruminant ruminoreticulum, 994
Influx rates
insects, 1056
Inhibition
alkylating agents, 885
B. cereus, 905
dehydrofolate reductase, 893
DNA synthesis, 898
RNA synthesis, 898
selective, immunosuppression, 958
Inhibitors
enzyme systems, 1078
Inner mitochondrial membrane
allotropic properties of, 1335
resolution and reconstitution of, 1335
Insects
barrier systems, 1056
cellular defense mechanisms, 1671
defense mechanisms, nodule formation, 1671
encapsulation, 1671
fatty acids in, 1056
influx rates, 1056
serological responses, 1675
toxicology, 1056
Insulin
marine organisms, 1197
Interactions
ruminant diet, 994
Intestinal mucosa
bile salt effects, 1589
Intracellular pH
based on distribution of weak electrolytes, 1327
Invertebrates
agglutinin-phagocytosis linkage, 1666
antigenic disposal, 1666
blood, agglutinin, 1666
coagulation-defense mechanism, 1707
coagulation-endotoxin relationship, 1707
noninsect serological responses, 1680
radiation response, 1693
reaction, chemical carcinogens, 1693
regulating hormones, 1179
response, vertebrate carcinogens, 1693
responses, 1056, 1179, 1197, 1206, 1680
specific graft rejection, 1666
transplantation recognition mechanisms, 1666
Invertebrate, marine
agglutinin-immunization, 1680
antibacterial substances, 1680
antifungicidal substances, 1680
Invertebrates, roach
heterograft experiments, 1698
resistance factors, 1698
vertebrate neoplasm responses, 1698

Juxtaglomerular apparatus
renal salt excretion, 55
renin release, 48
sodium excretion, 48

Kinetics
pinocytosis, 987
Kwashiorkor
mental development, 148

Leech
physiology of, 975
Lipid
malabsorption of, 1420
triglyceride properties, 1420
Lipid oxidation
decrease, alcoholic fatty liver, 1443
exercise, 1755
Lipid peroxidation
antioxidant effects on, 1436
ethanol effects on, 1436
Lipoperoxide formation
liver disease, 1436
Lipopolysaccharide, bacterial
biosynthesis, 76
structure, 70
Lipoprotein formation
alcoholic fatty liver, 1443
Liver
ultrastructural changes, alcohol, 1443
Liver lipids
exercise effects, 1755
Lophius
nephron patterns, 1008

Malabsorption
blind-loop syndrome, 1426
carbohydrate, 1415
clinical background of, 1388
diarrhea, 1405
enteric microorganism effects, 1426
hypogammaglobulinemia, 1606
lipid, biochemical aspects, 1420
mucosa, small intestine, 1391
Manganese deficiency
chondroitin sulfate content of epiphyseal cartilage, 118
skeletal abnormalities, 118
Marine organisms
properties of, 1197
Marine species
acetylation reactions, 1047
azo reductase, 1047
chemical effects on, 1047
metabolic irregularities, 1047
methylation, 1047
ornithuric acid synthesis, 1047
thiocyanate synthesis, 1047
Marine vertebrates
activating enzymes, 1047
conjugation reactions, 1047
demethylation, 1047
drug metabolism, 1029, 1047
excretion studies, 1047
hydroxylation, 1047
metabolic pathways, 1047
microsomal enzymes, 1047
nitro reductase, 1047
O-dealkylation, 1047
plasma half-times, 1047
Marsupials
fetal study of, 981
Mechanism
pinocytosis, active transport, 987
renal transport, 1008
Membrane
coupling, chemiosmosis, 1370
Membrane permeability
hemolysis, red cells, 1785
Membrane potential
response, tetrodotoxin-sodium blockage, 1655
tetrodotoxin selectivity, 1655
Membrane structure
chemical effects, 1647
function-characteristics relationship, 1647
Meperidine
effectiveness of, 1115
Metabolic pathways
marine vertebrates, 1047
Metabolic rates
species differences, 1062
Metabolism
body constituent variations, 1024
brain uptake differences, 1024
conjugation agents, 1029
excessive alcohol, 1443
liver aldehyde oxidase, 893
marine species irregularities, 1047
ruminant ruminoreticulum, 994

Methylation
marine species, 1047
species differences, 1029, 1047
Mice
behavior patterns, 1186
brain bioamines, 1186
chronic effects, sympathomimetics, 1186
interspecies differences, 1186
interspecies sensitivities, drugs, 1186
Michaelis constants
sex differences, 1040
species differences, 1040
Microcirculatory Society
background and purposes, 1779
Microelectrodes
hydrogen ion measurements by, 1322
insulating methods, 1322
Milk-plasma
sulfonamide relationship, 1001
Mitochondria
chemical inducers, ion transport, 1355
chemical inhibitors, ion transport, 1355
proton gradient, 1341
structure of, 1341
Modulators
activities of, 1164
characteristics, 1164
sources of, 1164
Molluscs
cellular responses, 1685
host-parasite interaction, 1685
Morphine
abstinence, 1111
age-toxicity, 1115
blood-brain barrier, 1115
catecholamine relationship, 1111
lethality, 1111
pharmacology, 1111
species differences, 1111
species sensitivity, 1115
M-series drug compounds
animal reactions to, 1247, 1251
thebaine derivatives, 1247, 1251
Mucosa, small intestine
abnormal physiology, diarrhea, 1405
enteritis, radiation induced, 1391
function of, 1391
malabsorption in, 1391
normal physiology of, 1405
structure of, 1391
Mucosal fluid
acidification mechanisms of, 1314
Muscle
action site, amino acids, 1633
intracellular pH, 1327
Muscle, electrophysical
response, tetrodotoxin, 1655

National Heart Institute
goals of, 1162
National Register
biomedical data analysis, 1577
Neoplasms
invertebrate response, 1698
Neuromuscular potential
transmitter quantitation changes, 1627
Neuromuscular sensitivity
amino acid, 1633
GABA inhibition, 1633
L-glutamate excitation, 1633
Neurophysiological
responses, squid, 981
Neurotransmitters
species differences, 1164
species response, 1164
species similarities, 1164
Neurotropic drugs
marine organisms, 1197
Nitro reductase
marine vertebrates, 1047
Nodular lymphoid hyperplasia
immunologic hypothesis, 1606
Nomenclature differences
pinocytosis, 987
Norepinephrine
avian heart, 1137
Nutrient membrane
permeability of, 1303
Nutrition
calcium, 121
central nervous system development, 134
copper, 129
feeding frustration, 144

O-dealkylation
marine vertebrates, 1047
Opsanus
nephron patterns of, 1008
Ornithuric acid synthesis
marine species, 1047
Osmosis
chloroplast fragments, 1361
Osteoporosis
adrenocortical function, 1737
bone resorption rate, 1747
calcium intake, 1747
calcium metabolism, 1747
pluricausality of, 1737
Outflow
ruminant ruminoreticulum, 994
Oxidative dealkylation
species differences, 1029
Oxidative phosphorylation
chemical coupling hypothesis of, 1335, 1341, 1370
emf gradient formation, 1341
unsolved problems of, 1335

Pain
species differences, 1089, 1146
Penicillin
cell wall synthesis, effect on, 9
Penicillinase plasmids
autonomous replication, 29
maintenance capability, 29
properties, 29
Peptidoglycan transpeptidase
penicillin sensitivity, 9
Periodontal disease
bone loss and, 1723
malocclusion, 1723
microorganisms, 1723
Permeability
barrier, submitochondrial particle, 1341
changes, electrogenesis, 1613
changes, inactivation response, 1613
hydrogen ion, 1303
mitochondrial selectivity, 1341
nutrient membrane, 1303
secretory membrane, 1303
spike electrogenesis, 1613
transport system, 1303
pH
ruminant sulfonamide environment, 1001
Phagocytosis
leukocytic, molluscs, 1685
Pharmacology
cardiac glycosides, 1119
comparative, goals and strategy, 975
marine species, 1047
morphine, 1111
smooth muscle, 1104
teratogenesis, 1131
Phosphofructokinase
3′5′-AMP-activation of, 1179
Physiology
marine species, 1047
Pinocytosis
active transport mechanism, 987
adsorption phase, 987
concentration relationship, 987
kinetics of, 987
leukocytic, molluscs, 1685
uptake, 987
use of colloidal gold, 987
Plasma
drug response levels, 1062
drug therapy levels, 1062
Plasma-milk
ruminant relationship of, 1001
Platelets
afibrinogenemic, 95
diisopropylfluorophosphate, 106
phagocytosis, 106
thrombasthenic, 95
vessel permeability, 106
washing effect, 95
Platelet agglutination
ADP effect, 95, 115
catecholamines, 115
collagen effect, 95
protein, 84
pyrazole compounds and release reaction, 106
thrombin effect, 95

Platelet-platelet
interaction, 95
Platelet-surface
interactions, 106
Poisons
venoms, toxins, 1206
Postjunctional membrane
acetylcholine response, 1647
receptor activation, 1639
receptor deactivation, 1639
response characteristics, 1647
Primate centers
information on, 1157
Progestational agents
anaphylactic shock, 934
immune response, 934
Protected environment
prophylactic antibiotics, 923
Proton-gradient hypothesis
chemiosmotic theory, 1335, 1341, 1370
evaluation of, 1341

Radiation
alkylating agents, 891
enteritis, small intestine mucosa, 1391
Rat
uterus insensitivity, 981
Reactions
tetraodontoid, 981
unusual ruminant ruminoreticulum, 994
Reaction, induced
species differences, 1089
Receptor sites
species differences, 1040
Receptors
deactivation studies, 1639
postjunctional membrane activation, 1639
Red cell
biochemical species peculiarities, 1821
comparative biology of, 1821
flow rate, concentration-velocity, 1813
ionic composition, 1805
membrane thickness measurement, 1785
microscopic flow properties, 1813
shape-mechanical interrelationship, 1780
transport and permeability, 1802, 1821
ultrastructure of, 1785
Red cell membrane
biophysical considerations, 1780
ionic selectivity mechanisms, 1805
Reinforcement
methods, 1146
Reinforcement response
species differences, 1146
Reinforcers
characteristics of, 1146
schedule of, 1146
Relationship
milk-plasma, sulfonamide, 1001
ruminant saliva to plasma, 1001
Renal excretion
organic bases, 1008
Renal function
goosefish, 981
pharmacological history of, 1008
Renal sodium excretion
deoxycorticosterone acetate, during escape from, 60
humoral factor, 60
Renal transport
bidirectional hypothesis, 1008
organic anion, 1008
transfer processes, 1008
transport competitors, 1008
transport problems, 1008
Renin
angiotensin, 39
blood pressure regulation, 39, 48
electrolyte balance, 39, 48
Renin-angiotensin system
adrenal, 42
biochemistry, 42
blood pressure regulation, 48

kinetics, 42
reabsorption rate, 55
Resistance
defense mechanisms, roaches, 1698
Resistance factors, bacterial
autonomous replication, 23
integrated state, 23
phages, restriction and modification of, 23
Response
cytotoxic drugs, human, 914
embryonic teratogens, 1131
endocrine, hormonal, 1192
mammalian, catecholamine, smooth muscle, 1104
mammalian, digitalis glycosides, 1119
receptor, endocrine, 1192
sensitivity, species, 1062
species, antimetabolites, 1139
species, neurotransmitters, 1164
squid, neurophysiological, 981
Rheumatoid factor
antigen-antibody reactions, 956
Ribonuclease
structure of, 1380
tyrosyl-carboxyl interactions, 1380
X-ray structural determination of, 1380
RNA
alkylating agents, 885
Rodenticides
characteristics, 1082
dietary differences, 1082
toxicity, 1082
Ruminant
absorption rate importance, 1006
absorption site importance, 1006
concentration gradient importance, 1006
diet interactions in, 994
drug administration, 1001, 1227, 1244
drug distribution in, 994, 1227, 1244
physiological peculiarities, 994
plasma-milk relationship, 1001, 1244
ruminoreticulum drug distribution, 994, 1227, 1244
saliva to plasma relationship, 1001
sulfonamide distribution in, 1001, 1244
unusual ruminoreticulum reactions, 994
Ruminoreticulum
absorption, 994
compartments of ruminant, 994, 1244
metabolism of, 994, 1244
unusual reactions, 994, 1244

Scurvy
guinea pig response, 981
Secretion
drug, milk, 1244
steroid, vertebrates, 1192
Sensitivity
morphine, species, 1115
species response, 1062
Serological responses
invertebrates, noninsect, 1680
Serotonin
effects of, 1179
Sex determinants
Bonnellinin, 1197
Sex differences
Michaelis constants, 1040
Skin allografts
drug administration time, 907
Small intestine
absorption sites, 1583
Smooth muscle
mammalian, catecholamine response, 1104
pharmacology, 1104
Species
new, experimental, 1157
Species differences

reinforcement response, 1146
rodenticides, 1082
Species similarities
behavior, 1146
cardiac glycosides, 1119
drug response, 1062
neurotransmitters, 1164
Species response
fluoroacetate, 1074
Specificity
drug suppression, 907
therapy, 953
Squid
neurophysiological responses, 981
Staphylococcus
extrachromosomal resistance determinants, 29
penicillinase plasmids, 29
Steroids
role of, 1192
secretion, vertebrates, 1192
Sterols
marine organisms, 1197
Streptococcus
transfer of resistance, 29
Streptomycin
misreading genetic information effect, 5
Studies
armadillo quadruplets, 981
marsupial, fetal, 981
Submitochondrial particles
isolation of, 1341
properties of, 1341
respiratory control in, 1341

Sulfonamides
distribution in ruminants, 1001, 1244
Synaptic transmission
polarization, 1627

Teratogenesis
pharmacology, 1131
Teratogenic drugs
comparisons of, 1131
Teratogenic response
X-ray, 1131
Tetrodotoxin
action sites, 1655
characteristics of, 1206
derivatives of, 1655
selectivity, membrane potential, 1655
Tetraodontoids
reactions from, 981
Thiocyanate synthesis
marine animals, 1047
Thrombus
fibrin, 84
platelet agglutination, 84
white, 84, 95
Toxicity
anthrax toxin, biological tests, 1554
heroin-age, 1115
morphine-age, 1115
rodenticides, 1082
insect ganglia, 1056
Toxins
animal, 1206
constituents of, 1206
marine, 1206
Physalia, 1225
Trace elements
arsenic, 194
chromium, 186
enzyme function, effect on, 186
preferential accumulation, 186
zinc, 172
Tranquilizers
animal reaction to, 1227, 1247, 1251
Transducer system
cell damage, 1062
drug effects, 1062
transfer process, 1062
Translation supplement
in communicating biomedical information, 1293
Transmitter quantitation
neuromuscular potential, 1627
Transmitter release
action potential, 1627
calcium concentration, 1627
Transport
body constituent variations, 1024
chylomicrons, 1599
pinocytosis mechanism, 987
red cell, carbon dioxide, 1802
renal, 1008
Transport inducers
effects of, 1355
structure of, 1355
Transport inhibitors
effects of, 1355
Transsynapsis
factors in, 1164
Tumor inhibitors
marine organisms, 1197

Undernutrition, infantile
behavior, 144
central nervous system development, 139

NUMBER 1. JANUARY-FEBRUARY 1967

EDITORIAL COMMENTS 1
MECHANISMS OF SENSITIVITY AND RESISTANCE TO ANTIBACTERIAL AGENTS
Induction of code ambiguity by aminoglycoside antibiotics. *L. Gorini* 5
Peptidoglycan transpeptidase and D-alanine carboxypeptidase: penicillin-sensitive enzymatic reactions. *J. L. Strominger, K. Izaki, M. Matsuhashi and D. J. Tipper* 9
Evolutionary relationships of R factors with other episomes and plasmids. *T. Watanabe* 23
Penicillinase plasmids in *Staphylococcus aureus*. *R. P. Novick* 29
RENIN, ANGIOTENSIN, ALDOSTERONE AND HORMONAL REGULATION OF ARTERIAL PRESSURE AND SALT BALANCE
Introductory remarks. *J. H. Laragh* 39
Biochemistry and kinetics of the renin-angiotensin system. *L. T. Skeggs, K. E. Lentz, A. B. Gould, H. Hochstrasser and J. R. Kahn* 42
Renin release and its role in renal function and control of salt balance and arterial pressure. *L. Tobian* 48
Intrarenal function of angiotensin. *P. P. Leyssac* 55
Humoral factors in the regulation of renal sodium excretion. *J. O. Davis, C. I. Johnston, S. S. Howards and F. S. Wright* 60
BIOCHEMICAL ASPECTS OF STRUCTURE, DIFFERENTIATION AND MORPHOGENESIS IN MICROORGANISMS
Mechanism of biosynthesis of the lipopolysaccharide of *Salmonella*. *M. J. Osborn and I. M. Weiner* 70
Evidence for temporal and quantitative control of genetic transcription and translation during slime mold development. *M. Sussman* 77
BASIC MECHANISMS OF CELL ADHESION AND PLATELET THROMBUS FORMATION
Introductory remarks. *K. M. Brinkhous* 84
Some biophysical aspects of cell contacts. *L. Weiss and R. F. Woodbridge* 88
Platelet-platelet interaction: relationship to hemostasis and thrombosis. *N. F. Rodman and R. G. Mason* 95
Platelet-surface interactions: relationship to thrombosis and hemostasis. *J. F. Mustard, M. F. Glynn, E. E. Nishizawa and M. A. Packham* 106
Mechanism of platelet aggregation and of its inhibition by adenosine derivatives. *G. V. R. Born* 115
31ST INFORMAL POULTRY NUTRITION CONFERENCE
Role of manganese in the synthesis of mucopolysaccharides. *R. M. Leach, Jr.* 118
Relationships of divalent cations to experimental lathyrism and collagen formation. *E. C. Naber, K. Scott and R. M. Johnson* 121
Role of copper in the formation of elastin. *C. H. Hill, B. Starcher and C. Kim* 129
RELATIONSHIP OF NUTRITION TO CENTRAL NERVOUS SYSTEM DEVELOPMENT AND FUNCTION
Overview. *D. B. Coursin* 134
Effect of infantile malnutrition on growth. *G. G. Graham* 139
Experimental animal approaches to the study of early malnutrition and mental development. *R. H. Barnes* 144
Genetics and nutrition. *C. J. Witkop, Jr.* 148
NUTRITION EDUCATION
Introduction. *J. B. Youmans* 152
The scope of nutrition. *W. H. Griffith* 153
The place of biochemistry in training in nutrition. *A. E. Harper* 158
Nutrition education in the agricultural and biological sciences. *F. W. Hill* 163
Nutrition teaching in medical sciences. *J. F. Mueller* .. 167
Nutrition education in home economics. *D. C. Cederquist* 170
TRACE ELEMENTS IN NUTRITION
Nutritional metabolic role of zinc. *A. S. Prasad* 172
Biological role of chromium. *W. Mertz* 186
Arsenicals in biology—retrospect and prospect. *D. V. Frost* 194
HISTAMINE CLUB SYMPOSIUM—UPTAKE, STORAGE AND RELEASE OF HISTAMINE
Uptake and binding of histamine. *J. P. Green* 211
Mode of binding and release of the histamine in mast cell granules from the rat. *B. Uvnäs* 219
Carbohydrate metabolism and histamine release. *A. Goth* 222
Histamine and sugars. *V. W. Adamkiewicz and P. J. Sacra* 224
Discussion. *R. G. Townley* 230
Heparin inhibition of histamine release and its relation to calcium. *M. E. Tidball* 231
Selective labeling of histamine in rat gastric mucosa. *M. A. Beaven, Z. Horakova, H. L. Johnson, F. Erjavec and B. B. Brodie* 233
Uptake and release of ^{3}H-histamine in cat submaxillary gland. *F. Erjavec, M. A. Beaven and B. B. Brodie* . 237

NUMBER 2. MARCH-APRIL 1967

PROGRAM AND ABSTRACTS OF PAPERS PRESENTED AT FEDERATION ANNUAL MEETINGS 241

NUMBER 3. MAY-JUNE 1967

EDITORIAL COMMENTS 875
PROCEEDINGS OF THE SYMPOSIUM ON IMMUNOSUPPRESSIVE DRUGS 877
Detailed Table of Contents 881
I. Biochemical and Pharmacological Aspects of Compounds 885
II. Immunosuppressive Drugs and Their Toxicity 907
III. Other Methods of Immunosuppression 934

NUMBER 4. JULY-AUGUST 1967

EDITORIAL COMMENTS 961
PROCEEDINGS OF AN INTERNATIONAL SYMPOSIUM ON COMPARATIVE PHARMACOLOGY 963
Detailed Table of Contents 965
I. Keynote Address 975
II. Special Lecture 981
III. Comparative Aspects of Absorption and Excretion of Drugs 987
IV. Mechanisms of Detoxification and Transformation 1027
V. Comparative Aspects of Drug Toxicity 1071
VI. Pharmacologic Actions of Drugs I 1097
VII. Pharmacologic Actions of Drugs II 1137
VIII. Chemical Secretions 1162
IX. Comparative Therapeutics 1227
X. Summation 1262

Number 5. SEPTEMBER–OCTOBER 1967

EDITORIAL COMMENTS 1267

BIOLOGICAL SCIENCES: UNIVERSITIES AND GOVERNMENT
- Introductory remarks. *K. M. Brinkhous* 1269
- Biology in the university: research and teaching. *B. Glass* 1270
- Relationships between science and Federal programs. *J. A. Shannon* 1275
- Future of Federal support for the biological sciences. *I. L. Bennett, Jr.* 1281

AGRICULTURAL SCIENCE IN THE SCIENCE COMMUNITY. *O. L. Freeman* 1284

COMMUNICATION PATTERNS OF BIOMEDICAL SCIENTISTS. I. MULTIPLE AUTHORSHIP AND SPONSORSHIP OF FEDERATION PROGRAM VOLUNTEER PAPERS. *B. L. Clarke* 1288

SELECTED TRANSLATIONS FROM MEDICAL-RELATED SCIENCE. *R. L. Zwemer* 1293

HYDROGEN ION EXCHANGE MECHANISM IN DIFFERENT ORGANS AND TISSUES
- Ion permeability and electrical resistance of the frog's gastric mucosa. *W. S. Rehm* 1303
- Mechanism of acidification in turtle bladder. *W. A. Brodsky and T. P. Schilb* 1314
- Measurement of intracellular pH with glass microelectrodes. *N. W. Carter, F. C. Rector, Jr., D. S. Campion and D. W. Seldin* 1322
- Intracellular pH based on the distribution of weak electrolytes. *T. C Butler, W. J. Waddell and D. T. Poole* 1327

ENERGY COUPLING IN ELECTRON TRANSPORT
- Introduction. *A. L. Lehninger* 1333
- Resolution and reconstitution of the inner mitochondrial membrane. *E. Racker* 1335
- Control and conservation of energy in the cytochrome chain. *B. Chance, C-p. Lee and L. Mela* 1341
- Specific induction and inhibition of cation and anion transport in mitochondria. *H. A. Lardy, S. N. Graven and S. Estrada-O* 1355
- Acid-base transitions and phosphorylation by chloroplasts. *A. T. Jagendorf* 1361
- Proton-translocation phosphorylation in mitochondria, chloroplasts and bacteria: natural fuel cells and solar cells. *P. Mitchell* 1370

STRUCTURE AND FUNCTION OF ENZYMES
- Structural studies of pancreatic ribonuclease. *H. A. Scheraga* 1380

MALABSORPTION
- Malabsorption: the clinical background. *F. J. Ingelfinger* 1388
- Structure of the mucosa of the small intestine as it relates to intestinal function. *J. S. Trier* 1391
- Speculations on the pathogenesis of diarrhea. *J. S. Fordtran* 1405
- Malabsorption of carbohydrate. *G. M. Gray* 1415
- Biochemical aspects of lipid malabsorption. *K. J. Isselbacher* 1420
- Role of enteric microorganisms in malabsorption. *R. M. Donaldson, Jr.* 1426

ALCOHOL, METABOLISM AND LIVER DISEASE
- Introductory remarks. *W. S. Hartroft* 1432
- Role of lipid peroxidation in the pathogenesis of the ethanol-induced fatty liver. *N. R. Di Luzio and A. D. Hartman* 1436
- Chronic alcoholic hepatic injury in experimental animals and man: biochemical pathways and nutritional factors. *C. S. Lieber* 1443
- Dietary factors in the progression and regression of hepatic alterations associated with experimental chronic alcoholism. *E. A. Porta, W. S. Hartroft, C. L. A. Gomez-Dumm and O. R. Koch* 1449
- Experimental alcoholic hepatic injury in man: ultrastructural changes. *E. Rubin and C. S. Lieber* 1458
- Neuropharmacological effects of substances other than ethanol in alcoholic beverages. *H. B. Murphree, L. A. Greenberg and R. B. Carroll* 1468
- Clinical diagnosis, evaluation and treatment of liver disease in alcoholics. *C. M. Leevy* 1474

PROCEEDINGS OF THE CONFERENCE ON PROGRESS IN THE UNDERSTANDING OF ANTHRAX
- *Detailed Table of Contents* 1487

Number 6. NOVEMBER–DECEMBER 1967

BEAUMONT, THE HOME OF THE FEDERATION, 1967 1573

EDITORIAL COMMENTS 1575

ANALYSIS OF 1966 NATIONAL REGISTER OF SCIENTIFIC AND TECHNICAL PERSONNEL DATA FOR BIOMEDICAL SCIENTISTS. I. THE BASIC DATA. *B. L. Clarke* 1577

GASTROENTEROLOGY
- Sites of absorption in the small intestine. *C. C. Booth* 1583
- Effects of bile salts on intermediate metabolism of the intestinal mucosa. *J. M. Dietschy* 1589
- Formation and transport of chylomicrons. *D. B. Zilversmit* 1599
- Nodular lymphoid hyperplasia of the small intestine and hypogammaglobulinemia: theoretical and practical considerations. *P. E. Hermans* 1606

IONIC PERMEABILITY OF SYNAPTIC AND NONSYNAPTIC MEMBRANES
- Introduction. *W. L. Nastuk* 1612
- Some comparative biological aspects of membrane permeability control. *H. Grundfest* 1613
- Depolarization and excitation-secretion coupling in presynaptic terminals. *P. W. Gage* 1627
- Electrophysiological studies of the action of GABA on the synaptic membrane. *A. Takeuchi and N. Takeuchi* 1633
- Activation and inactivation of muscle postjunctional receptors. *W. L. Nastuk* 1639
- Some speculations on the chemical nature of postjunctional membrane receptors. *C. J. Cavallito* 1647
- Tetrodotoxin's highly selective blockage of an ionic channel. *J. W. Moore and T. Narahashi* 1655

DEFENSE REACTIONS IN INVERTEBRATES
- Introduction. *F. B. Bang* 1664
- Invertebrates, immunology and evolution. *J. E. Cushing* 1666
- Cellular defense mechanisms in insects. *G. Salt* 1671
- Serological responses of insects. *J. S. Chadwick* 1675
- Serological responses among invertebrates other than insects. *F. B. Bang* 1680
- Responses of molluscs to foreign bodies, with special reference to the oyster. *S. Y. Feng* 1685
- Responses of invertebrates to vertebrate carcinogens. *J. C. Harshbarger* 1693
- Cellular response of a cockroach *Leucophaea maderae* to transplants of cell culture lines of vertebrates. *C. J. Dawe, W. D. Morgan and M. S. Slatick* 1698
- Blood coagulation and endotoxin in invertebrates. *J. Levin* 1707
- Summary. *F. B. Bang* 1713

NUTRITION AND BONE LOSS
- Introductory remarks. *S. M. Garn* 1716
- Relationship between diet and bone mineral ultrastructure. *A. S. Posner* 1717
- Loss of bone and remodeling-redistribution in the craniofacial skeleton with age. *H. Israel* 1723
- Bone loss as a general phenomenon in man. *S. M. Garn, C. G. Rohmann and B. Wagner* 1729
- Dietary and hormonal factors in bone loss. *R. W. Smith, Jr.* 1737
- Mineral intake and bone loss. *D. M. Hegsted* 1747

NUTRITION AND WORK PERFORMANCE
- Lipid metabolism and muscular work. *L. A. Carlson* 1755

Nutrition, environment and work performance with special reference to altitude. *E. R. Buskirk and J. Mendez* 1760
Nutrition, exercise and cardiovascular disease. *J. Mayer* 1768
Diet and athletic performance. *P.-O. Astrand* 1772
Discussion and concluding remarks. *R. E. Johnson* 1778
MICROCIRCULATORY SOCIETY SYMPOSIUM ON THE RED CELL
Introduction. *S. S. Sobin* 1779
Some biophysical considerations of the red cell membrane. *R. P. Rand* 1780
Ultrastructure of the red blood cell. *R. F. Baker* 1785
Gas transport and the red cell. *T. Enns* 1802
Electrolyte composition and transport in red blood cells. *D. C. Tosteson* 1805
Microscopic flow properties of red cells. *H. L. Goldsmith* 1813
Comparative biology of red cells. *T. J. McManus* 1821
SUBJECT INDEX TO VOLUME 26 1827
AUTHOR INDEX TO VOLUME 26 1834
